## If You Drink, Don't Drive

Members are reminded that the new and very tough drink driving laws have been brought into effect in Hong Kong and it has been requested that the Club installs breathalyzer testing equipment in the bar. However, the best way that one can be sure that they are not over the limit is simply not to drink and drive. Think before you drink is the best solution and the surest way to remain safe.

If you do drink in the Club you may always leave your car in the car park. Forms are available in the bar or at the reception.
